TEXTILE TECHNOLOGY AND DESIGN**TASK TYPE: PROJECT****TITLE: GARMENT DESIGNING, PATTERN MAKING AND
GARMENT CONSTRUCTION****BACKGROUND:**

While clothing is a basic need, quality clothes on the market are usually expensive and cheaper ones are not always durable. There is however, a variety of beautiful designs which can be introduced during colour application and pattern development to create unique garments.

You are required to design and construct a garment of own choice.

THE PROJECT

The project is in 3 parts – Part A, Part B and Part C.

Part A

Develop a design and introduce colour on a plain woven cotton fabric. (Such fabric has gone through the scouring and bleaching processes but not yet dyed or printed)

Design a garment to fit. Sketch the front and back views of the garment. Label all style features.

Part B

- Use the basic blocks to develop the patterns for the design.
- draw the layout and write the order of work
- Cost all the requirements needed to construct the garment

Part C

- Construct the garment
- Use the order of work

HOW YOU WILL BE ASSESSED

To answer the project, your teacher will assess your design evidenced in Part A, your pattern development evidenced in Part B and garment construction evidenced in C.

Achievements standards specific to this project will be provided so that you are aware of the assessment criteria.

PROJECT TIPS

- You can use CAD to design your garment
- Effective use of colour on the design is encouraged
- Remember to be very accurate and precise when developing patterns
- Good workmanship is essential.
